FACULTY DEVELOPMENT PRESENTATIONS

Session A: 9:10-10:00
Session B: 10:10-11:00
Session C: 11:10-12:00

** Each presentation will be given three times, once for each session.**

Room 202 Invisible Disabilities and How to Navigate Accommodations

Pamela Harris (EAC) and Denise Nelson (Ryan Library)

At PLNU, 84% of students registered with the EAC qualify with “invisible” disabilities such as learning disabilities, mental health conditions, attention disorders, etc. Using the results of our spring 2022 survey and current disability law, participants will engage in recommending practical ways to accommodate your students with disabilities and learn how to talk to struggling students you suspect might have an invisible disability.

Room 203 Utilizing Career High Impact Practices to Get Your Students Market-Ready

Tre Watkins and Peter Alkatib (Career Services)

With over 80% of students indicating that career opportunities are a major factor in their college choice, how do we use that motivation to help students be prepared for their future careers? Join us in a discussion around how Career Services and faculty can collaborate to embed career readiness into the curriculum and the classroom.

Room 204 Inclusive Pedagogy: Strategies and Structures That Help Students Overcome Barriers to Learning

Walter Cho (Biology) and Liz Holbrook (Accounting)

Inclusive Pedagogy strives to create learning environments where all students feel valued, respected and capable of succeeding. As PLNU works toward creating a more inclusive campus climate, educators play a key role, and pedagogy is at the center of our efforts. Inclusive pedagogy allows all students to have an equitable chance of succeeding academically and feel a sense of belonging in our classrooms and on our campuses.

Room 205 Where Do We Go from Here? Helping Students Get Back on Track

Max Butterfield (Psychology), Jo Clemmons (CTL), and Gayle Solfrank (CTL)

In response to the toll COVID, anxiety and isolation have taken on students and their learning, we will discuss the problems of low attendance, motivation, not speaking in class and general disengagement from school. The Chronicle of Higher Ed calls it, “A Stunning Level of Student Disconnection.” We’ll be working together to come up with a plan to move forward.
